

VANBRIMMER, CORAL MARIE  
1911-June 20, 1913

INFANT CHILD DIED OF WHOOPING COUGH

Coral Marie, the little daughter of Mr. and Mrs. Thomas R. Van Brimmer, aged 1 year, 10 months and 17 days, passed away June 20, 1913, death being caused by whooping cough, complicated by pneumonia. All that kind loving hands could do was unavailing, and after a week of intense suffering, God took the little blossom from this world of suffering, sin and sorrow to bloom in His garden in heaven.

Coral was a beautiful, attractive child, and her loving disposition made her short life a continual ray of sunshine that brightened the home and lives of all those to whom she was near and dear.

May the sorrowing hearts be sustained by the loving Savior, who said: "Suffer little children to come unto me and forbid them not for such is the kingdom of Heaven." And after all life's lessons are ended and finished and we meet dear little Coral in the "beautiful city of God", we shall know why it was best that this little darling was taken from us now.
